Test credentials (one login per role)

Role	Email	Password	What to test as this role
Patient	sarah@example.com	123456	book appointment, view prescription
Doctor	marcus@example.com	123456	see schedule, write prescription
Receptionist	clara@example.com	123456	confirm appointment, billing

Testing checklist

Pass?	Check
☒	Email/password login works on the live URL.
☒	Google (social) login works on the live URL.
☒	Each of the 3 roles shows a different sidebar after login.
☒	The end-to-end workflow between roles completes (see the assignment).
☒	A user cannot see another user's private data (Row Level Security works).
☒	Supabase tables/columns follow snake_case naming standards.
